

ABB
Variable frequency drives for HVAC
Fractional through 550 HP
NEMA 1, NEMA 12, NEMA 3R & NEMA 4X

Variable Frequency Drives
12 pulse, 18 pulse and Ultra low harmonic drives
Engineering assistance and field service
Motors, combination starters and soft starters

AEROVENT
Axial & tube axial fans
Mixed flow & in-line centrifugal fans
Centrifugal fans

Industrial Fans
Roof ventilators
Fiberglass fans
Make up air units

DANFOSS
Energy savings - short payback
Field settable constant flow valves
Chilled water, hot water and condenser water

Pressure Independent Control Valves
Sizes from 1/2" to 10"
Electronic actuators
Hose kits

DRISTEEM
Direct steam injection - short absorption
Electric to steam humidifiers
Steam to steam humidifiers

Humidification
Fogging and evaporative humidifiers
Gas fired steam humidifiers
Water treatment systems

INDEECO
Open and finned tubular duct heaters
Standard and SCR controls
Comfort and radiant heaters

Electric Heat
Industrial unit heaters - wash down & XP
Stainless, wash-down explosion proof enclosures
UL Listed and NEC Approved

INGENIA
Flexible designs
Complete no through-metal panel construction
Low leakage & low sound

Custom Air Handling
Time saving knock down construction design
Powder coated exterior, Anti-microbial interior
Factory controls & piping

KRUEGER
Registers, grilles & diffusers
Single duct and fan powered terminal units
Horizontal, vertical, console fan coil units and blower coils

Air Distribution & Fan Coil Units
Chilled beams, underfloor and displacement ventilation
Operating room and critical environment air distribution
DOAS terminal units and induction units

MK PLASTICS
Hi-plume dilution blowers
Single and multiple plenum configurations
AMCA 260 certified for sound and air

Laboratory Exhaust Fans
Integrated heat recovery systems
FRP corrosion resistant construction
Perchloric acid exhaust

MSA
Refrigerant leak detection
Parking garage CO and NO2 detection
MRI O2 detection

Gas Detection
Multiple gas monitoring and control systems
Toxic and explosive gases
Certified service and calibration

PENN BARRY
Domex and Fumex spun aluminum blowers
Centrex inline fans & Dynamo vent sets
Mixed flow, centrifugal and axial fans

Commercial Fans
Gravity ventilators and louvered penthouses
Zephyr cabinet, ceiling and inline fans
DOAS & HRV packaged systems

PHOENIX CONTROLS
Laboratory and fume hood controls
Air flow and pressurization controls
Operating room and critical care

Critical Airflow Controls
VAV, CV and 2-position venturi air valves
Stand alone or BMS integrated
Engineering assistance and field service

TAMCO
Energy saving thermally insulated, low leakage dampers
Smoke control dampers - on/off & modulating
Corrosion resistant dampers

Investment grade airflow control
Aluminum construction
Air-foil control
Backdraft dampers

259 West 30th St Suite 801 New York, NY 10001
